**Comments:**

**Associate in Education:**

The Education associate degree program at Dona Ana Community College is designed to prepare students for transfer into the Teacher Education Program (TEP), a baccalaureate program at New Mexico State University. Alternatively, students may opt to transfer to a similar program at another four-year institution. The DACC program includes the lower division courses required for entry into the TEP. Completion of this program does NOT guarantee admission into a Teacher Education Program at a four-year institution. Early in their second year of study at DACC, students should contact the four-year institution they have chosen to obtain application information.

Students in the Education Program are required to complete and pass a security background check in order to take the field experience course. Past criminal violations may prevent a student from completing the degree and from being hired by school systems or other child care facilities upon graduation.

*\* denotes TEP pre-requisite*

**Courses in bold print are New Mexico General Education Core Classes**

**Note: Completion of these requirements does NOT guarantee acceptance into the NMSU Teacher Education Program. Please see the NMSU College of Education Advising Center for more information.**
