TOTAL CREDITS REQUIRED: 66

Total to date _____

Final Cumulative GPA _____

NOTE:

1. Check applicable university catalog to determine appropriate math course(s) for intended bachelor's degree.
2. It is recommended that electives be chosen in consultation with an academic advisor and that students plan to take electives to meet the requirements of their planned bachelor's degree, or specific requirements within the major, such as the foreign language requirements.
3. Electives: A maximum of nine *applied* credits taken in any combination, will be accepted as electives for the Associate of Arts degree. Applied courses include those with the following prefixes: ARCT, BOT, CMT, COLL, DHYG, DRFT, ECED, OEES, OEMG, L SC, LAWE, NURS, PL S, as well as prefixes starting with the letters "OE-". Students pursuing a bachelor's degree are strongly encouraged to consult with academic advisors at both DACC and NMSU early in their associate degree program to ensure that their elective credits will apply toward the requirements in their intended bachelor's degree.
4. Nine or more credits, all under one prefix, may be substituted for a single general education (G) course with that same prefix. For example, ART 150, 155, and 156 (totaling 9 credits) could be used in place of the general education course, ART 101G in the NMSU system.
5. Other course options available at DACC and NMSU. The following courses may also be used in fulfillment of Associate of Arts Degree requirements. However, they may not necessarily apply to a student's chosen bachelor's degree plan.
