Making sense of the phone numbers

Four-digit dialing may be used when calling between DACC locations (White Sands excluded). For example, (882)6800 may be dialed as 6800. When dialing a DACC number from the outside, assume a "527-" prefix if no prefix in parentheses appears. A single (8) in front of a four-digit number means that the prefix is "528-" instead of "527-".
